## SLEEP SMARTER

With Australia's Smartest Sleep Company

The Sophie range of technologically advanced Therapeutic Adjustable Beds provides the benefits of independent head and foot elevations in addition to pre-saved sleeping or sitting positions on your either the wireless remote or Sophie Smartphone App, available from both the Apple and Android stores.

The pre-set Zero-G position provides you with total body support, not found in a traditional flat-bed. This position allows for perfect spinal alignment, whilst removing pressure from your back, hips, and knees throughout the night. With premium dream memory foam used in every Sophie Adjustable Bed, you're ensured superior pressure relief, as the advanced technology evenly distributes your body weight across the surface area, leaving you with an overall sense of weightlessness.

The inclusion of Therapeutic Whole-Body Vibration Therapy transforms the bed from a haven of solitude into your personal therapy station. With increased circulation, improved joint mobility, and a reduction in aches and pains all at your fingertips. You'll have the choice of 4 different massage modes and 3 different intensities to ensure the perfect balance of therapy and relaxation is achieved for all clients combining to promote better health and an overall sense of increased well-being.

The inclusion of industry-leading corner supports, ensures zero mattress movements, enhancing the overall safety of our Adjustable Bed far beyond our competitors. The option of split systems, not only improves individual comfort options but also eliminates sleep-robbing partner disturbances, affording you the peace of mind to invest in the comfort and luxury that you deserve.

Since I started sleeping on the Sophie adjustable bed I have woken up each morning absolutely pain free. I use to reach for the Nurofen every morning and take a very hot shower just to get my seriously sore lower back moving. Now I don't take any pills and even get to wake up with a great massage. This is living! - JOHN A

I have been using these beds for the past 18 months and I can honestly say I have had no back pain since, they are just pure comfort and would not hesitate in recommending these beds to anybody - Vaughan C
